

# The Snap-It Appliance

**It doesn't need clips or clasps**

**It doesn't cover your palate**

**It's supported by your own teeth so it doesn't dig in to the gums**

**You don't need to use denture fixative**

**It stays firmly in place but you can remove it when you want to**

**It fits over your own teeth. There's no drilling or injections**

**It can replace up to 3 teeth**

**If you're missing some teeth and you don't want a denture ask us about the Snap-It today!**
